2008/09 Second Quarter Report

SUMMARY OF MAJOR CHANGES

The district has completed its financial analysis for the second quarter of operation (July 1, 2008-December 31, 2008). Enclosed in this document is a reporting for all of the funds the district maintains as authorized by the California Education Code. The short description and analysis at the beginning of each fund report explains the purpose of the fund and recent financial trends that may have changed from the Adopted Budget. Also included in this report is a supplemental information section that contains the State Quarterly Report (311Q) and Capital Projects Summary. The analysis of the General Fund follows.

GENERAL FUND REVENUE

Revenue and Enrollment Assumptions

Resident Enrollment

The colleges have submitted their first period (P-1) report to the state reflecting actual FTES achieved during the summer and fall quarters, with estimated FTES for the winter and spring quarters. The report indicates that Credit Resident FTES is forecasted at 32,676, compared to our recalculated budget of 32,865, and that Non-Credit Resident FTES has grown and will come in at 557, or 71 over our recalculated budget. We have revised our revenue projections to reflect these changes, which resulted in a reduction to our State Apportionment revenue of approximately \$497,000 (see Table 1).

Job Corps

For a number of years, De Anza has hosted the Job Corps program to conduct job training throughout California. As a result of the college's recent review, the manner in which this program worked through the college is being discontinued. Consequently, De Anza will lose the FTES associated with Job Corps in the winter and spring quarters, and in subsequent years. It is fortunate that there is sufficient on-campus demand for classes at De Anza that any FTES loss associated with Job Corps can now be absorbed by on-campus demand. With this change in how the Job Corps program is operated, there will be a corresponding reduction in expense of approximately \$1 million that otherwise would have been paid to the program contractor, reflecting savings for the remainder of the 08/09 fiscal year. We have revised our expense projections to reflect these changes.

Non-Resident Enrollment

Non-resident FTES is forecast to exceed budget by 106, which will represent an increase in revenue of \$880,080 (see Table 1). There are additional recruiting expenses associated with this growth as noted in the expense analysis below.

Property Tax Backfill

In March 2008, a state property tax shortfall emerged, resulting in a \$92 million loss of revenue to the California community colleges. For Foothill-De Anza, this resulted in a shortfall of approximately \$2.6 million. Although the governor's May revision proposed a partial (\$75 million) backfill for this property tax shortfall, we presented the district's 2008/09 budget to the Board of Trustees for adoption without this backfill because we could not be certain it would come to pass. Now that it has, starting in October 2008, the state has begun funding this property tax backfill, which will help us on a one-time basis for 2008/09.

Prior Year Adjustment

At our Adopted Budget, we reported that we might have to make some adjustments to our final 07/08 revenue. The state cannot finalize prior year apportionment revenue until January of the next year, as that is when both final property tax revenues and final college FTES reports are certified. As a result of this recalculation for the 07/08 year, the district will receive an additional \$800,000 due to increased funding for growth in 07/08. Although we revised our projections for this additional revenue, this number represents an estimate only as the final recalculation has not been officially published at the time our second quarter report was printed.

Mid-Year Apportionment Deferral

The governor and legislature's decision to defer payments of general apportionment for six months (July through September, as well as January, February and June, should the latest version of the governor's 08/09 budget come to pass) will mean a loss of interest income of nearly \$500,000. Such a late and unexpected decision will function in a similar way as a cut to our apportionment in fiscal year 08/09. We have revised our revenue to reflect this anticipated revenue reduction.

Mid Year Cuts

There is no news at this time regarding 08/09 reductions to state apportionment.

Productivity (WSCH/FTEF Ratio)

As stated earlier, the colleges are forecasting that they will meet their FTES goals for 08/09. One of the results of increased student demand and careful enrollment management is that the WSCH/FTEF (productivity) is expected to increase over the budgeted ratio of 535. This may result in fewer part-time teaching dollars being used to generate FTES and will result in savings to the budget.

GENERAL FUND EXPENSE

Certificated Salaries

Our projections vary from Revised Budget by nearly \$482,000. This net variance represents some savings from unfilled positions but is offset by the increased cost in the part-time faculty accounts, which were necessary to achieve the higher FTES level (net savings of \$382,000). In addition, we will not have to use all of the personnel contingency funds budgeted for 08/09, which will result in a savings of approximately \$100,000.

As in prior years, any float from vacant faculty positions will be used to hire part-time faculty and the remainder of unused funds, if any, will revert to the unrestricted fund balance.

Classified Salaries

The projected net variance under budget of \$1.5 million is mainly due to float generated from positions held vacant as well as deliberate reduced spending on salaries for casual and student employees in order to maximize the colleges and Central Services' ending fund balance carryover. As we have done in the past few years, any float generated from unfilled classified positions will be distributed to the colleges as one-time B budget monies.

Benefits

The management of the fringe benefit program as a self-insured program always brings an element of uncertainty to the budget compared to a fully insured program. An analysis of actual expenses for the first six months of 08/09 indicates that there may be a saving of about \$1 million in 08/09. This savings is due in part to the actual experience, especially among the retiree group, but is also due to the higher number of vacancies being held open during 08/09 in preparation for the budget reductions imminent in 09/10 and subsequent years. These expenses will continue to be monitored closely as they can change quickly as a result of only a few cases of illness or injury amongst the active and retired employees. We have reflected these projected savings of \$1 million in our Internal Service Fund (Fund 61).

Supplies

At this time we are not estimating any changes in this expense category.

Operating Expenses

We are currently projecting that there will be \$11.2 million unspent in this category, mostly from 07/08 carryover funds as follows:

- Due to our growing deficit and the uncertain fiscal situation at the state level we slowed down spending in order to generate savings. We are anticipating a projected carryover (as of June 30, 2009) of:
 - o \$2.6 million of restricted B budget funds at Foothill College
 - o \$5.1 million of restricted B budget funds at De Anza College
 - o \$2.2 million of restricted B budget funds at Central Services

These funds, totaling approximately \$9.9 million, originally expected to be carried over for a period of three years with the intent of funding student enrollment initiatives, professional development for faculty and staff, and providing capital subsidy of Measure C projects, may need to be used to offset a district operating deficit in fiscal year 09/10 and beyond.

- In addition, there will be a \$1.3 million restricted district-wide carryover, which includes remaining funds for EIS backfill (original amount \$1.7 million).
- We will end the year with the Board of Trustees Stability Funding (\$600,000) intact.
- We are adjusting our utilities projections downward to reflect favorable energy rates, resulting in a projected net savings of \$164,000 in fiscal year 08/09.
- We are also adjusting our projections for the International Student Program to reflect additional costs (\$200,000) associated with recruitment of new students (see Non-Resident Enrollment above).

Transfers and Other

We are still projecting to transfer in projected \$1.5 million from the Internal Service Fund (Fund 61) to offset the increased costs of our health benefits plan in fiscal year 08/09.

Fund Balance

The net change to fund balance is the result of the combination of increases and decreases to revenue and expenses as explained in each line item noted above.

As a result of the impending budget reductions in 09/10 and 10/11, all departments are trying to save as much money as possible to be used in the next one to two years to delay the pain of ongoing reductions. As a result of this kind of spending slowdown, it is expected that the ending fund balance will increase for June 30, 2009 as "savings" accounts are bolstered to anticipate the gloomy operating budget decreases coming in the next two years.

Based on all the assumptions of revenue and expenses, the 08/09 Adopted Budget is forecast to have an ongoing structural deficit of approximately \$6.5 million, with an excess of projected expenses over projected revenue (see Tables 2 and 3). Currently, we are planning to use one-time funds to balance the budget in fiscal year 08/09 as follows:

- \$2.2 million from the 07/08 unrestricted ending fund balance
- \$1.5 million from the transfer-in from our Internal Service Fund (Fund 61) (use of funds from medical savings generated in prior years)
- \$2.8 million (est.) from recovery of property tax backfill and 07/08 revenue recalculation provided in governor's budget

This will leave approximately \$1.6 million in unrestricted funds available to offset the 09/10 deficit (one-time).

As indicated above, we are also currently projecting approximately \$9.9 million in restricted colleges and Central Services carryover, which we plan on using to offset some of the fiscal year 09/10 deficit while implementing structural corrections. If 08/09 mid-year cuts were to be imposed, we will be forced to draw upon these savings much sooner to get us through this fiscal year.

We will keep the Board informed of important developments affecting reserves as the year progresses.

ALL FUNDS CHART

SELF-SUSTAINING

Fund 15

Self-Sustaining funds, as the name implies, counterbalance operating expenditures against the revenues generated from various instructional arrangements. Not all related costs are allocated to these programs but, for those expenses that are charged, the programs are expected to generate income or use accumulated balances to cover them. Although budgets are used as a means to forecast and control revenue and expenditure activity, spending is solely dependent upon their ability to generate sufficient revenue to adequately support such operations.

Most accounts within this group have residual funds; excess revenues over expenditures are available for use at the respective college's discretion. The residual funds are regarded as designated funds, which mean that, although the district regards them as restricted, they are actually unrestricted and are reported to the state as such. The Board of Trustees has the discretion to use the funds for any lawful purpose.

Current Status:

During the second quarter, the Self-Sustaining Fund completed the move of the Etudes program to a new independent organization, Etudes Inc. Originally, Etudes was administered under Foothill College but now is supporting many colleges, emerging into a new 501(c)(3) nonprofit corporation serving under the direction of an independent board. Foothill will continue to be one of the premier users of Etudes; staff will maintain their offices on campus and will house their data on district servers.

Etudes' recent departure from the Self-Sustaining Fund resulted in budget revisions to reduce projected revenue (\$1,073,500) and corresponding projected expenses (\$840,800).

We are projecting to end the fiscal year with a net change in fund balance of \$388,753 and a projected carryover fund balance of \$6,450,000.

RESTRICTED and CATEGORICAL Fund 21

Restricted and Categorical Funds are those resources that come from federal, state or local agencies. In general, money received from these programs is restricted for a specific purpose. The principal programs in the Restricted and Categorical fund are as follows:

Current Status:

Instructional Equipment, Library Materials, and Technology (Block Grant): The state budget includes ongoing and one-time funds for Instructional Equipment and Library Materials. In 2008/09, the district anticipates receiving ongoing funds in the amount of \$353,095. These funds require a \$3 to \$1 match. Our district also received a one-time allocation of Physical Plant and/or Instructional Support Allocation funds of \$269,567. These one-time funds require a \$1 to \$1 match if used for scheduled maintenance projects and a \$3 to \$1 match if used for instructional equipment. Foothill College has decided to use their portion of the one-time funds of \$107,827 for instructional equipment and De Anza College intends to use the \$161,740 they were allocated for scheduled maintenance projects. At the beginning of the 2008/09 fiscal year, the district carried forward \$2,977,023 in designated unspent instructional equipment dollars. During the 2008/09 fiscal year, we plan to spend approximately \$1,250,000 in Instructional Equipment funds.

NASA Internship Program: Provides training and paid internships for students at NASA Ames Research Center and other related businesses. Our budget reflects \$1,536,372 million in revenue and related expenses for 2008/09.

Perkins Career and Technical Education Act (CTEA): CTEA funds are federal funds administered by the state for technical education and improvement of career and technical programs.

High Tech Center Training Unit: This grant is funded by the state and provides support for training of instructors of disabled students at community colleges in the state.

Matriculation, Staff Development, Staff Diversity, Extended Opportunity Programs & Services (EOPS), Cooperative Agencies Resources for Education (CARE), and CalWorks: These programs target specific populations or services funded by the state. For the second quarter 2008/09, we are projecting \$100,463 more in categorical revenue and related expenses for Credit

Matriculation (\$72,195), Non-credit Matriculation (\$24,713), and EOPS (\$3,555). The Restricted Fund 21 budget reflects categorical programs funded at the 2007/08 level. Although the state budget passed with no reductions to categorical funding for 2008/09, there has been discussion of mid-year cuts to community college funding in this area. This is challenging to the program administrators who oversee these programs as they are trying, on the one hand, to be frugal yet these funds must be spent down completely by year-end otherwise unspent dollars are returned to the state.

Health Services Fees and Mandated Cost Reimbursement: Health Services Fees are fees collected from the students and are restricted for the provision of health services for students. Because the fee level is set by the state, and we are mandated to provide a fixed level of services, the state provides reimbursement (mandated cost reimbursement) for the cost of providing these services over and above what we collect. The mandated cost reimbursement is recorded in Fund 14. Changing the level of services we provide – either more or less – will jeopardize the mandated cost reimbursement. On June 2, 2008, the Board of Trustees approved a \$1 increase to the student health fee to \$14/quarter effective summer quarter 2008. For 2008/09, we anticipate \$1.83 million in income and related expenses for Health Services.

Economic Development: State funding provided for the operation of De Anza's Center for Applied Competitive Technologies (CACT) and other projects for improving career development services locally and regionally. For 2008/09, we have three active Economic Development Grants. We estimate spending a total of \$663,275 for these grants. The Comp TechS Program allows student interns to gain valuable experience refurbishing computers. These computers are provided to low income Foothill-De Anza students in need of such equipment. The Comp TechS Grant, administered by the Occupational Training Institute (OTI) at De Anza College, carried forward approximately \$100,000 from 2007/08. We also received a \$205,000 grant for the CACT (Center for Applied and Competitive Technologies) program and \$358,275 for a Solar IDRC (Industry-Driven Regional Collaborative) grant, which provides resources to teach students about solar photovoltaic installation. The Professional and Workforce Development program at De Anza College administers both of these grants.

Americans with Disabilities Act (ADA): State funding provided for the removal of architectural barriers to persons with disabilities.

National Science Foundation: Federal funding for curriculum development in science programs. In 2008/09, we have five active NSF grants and we anticipate \$983,000 in revenue and related expenses for the fiscal year.

Career Technical Education (CTE): The state provided \$369,656 in one-time funds in 2008/09 to expand CTE in public secondary and lower division public education.

SPECIAL EDUCATION Fund 22

Special Education is a program mandated by *Title V* and funded primarily by the state. It provides services for physically, developmentally, or learning disabled students. Services include special classes, interpreters, on-campus assistance, test-taking assistance, computer-aided labs, and priority registration.

Current Status:

In the second quarter, the state revenue budget was adjusted upward by \$173,675 to reflect the 2008/09 allocations for DSP&S for both Foothill and De Anza Colleges. The additional revenue allocation allowed us to restore the discretionary budgets in Fund 22, increasing them by \$121,496 and to lower the transfer-in from the district by \$52,179. We are projecting to carry over \$100,000 in restricted carryover to fiscal year 09/10.

FEDERAL WORK STUDY Fund 23

Federal Work-Study is a federal program providing financial aid to students in the form of compensation for work performed for on-campus and off-campus work. The district is required to contribute 25% of the total funds compensated to work study employees. Beginning with the 2000/01 year, institutions were required to spend at least 7% of the Work-Study allocation to pay students performing Community Service work.

Current Status:

PARKING FUND

Fund 25

This fund collects all revenues and expenses associated with providing parking services at both campuses. Revenues are derived from sales of parking decals, daily permits, and fees from special events. Expenditures are restricted by state law to road and parking lot maintenance, parking security costs, related operating overhead and public transportation for students and staff.

Revenue from parking permits is limited by student enrollment and by the state statute that limits parking fees to \$100 per year. At the same time, expenses are escalating due to salary increases and increases in other operating expenses, which will result in an estimated operating deficit of \$377,043. Our current strategy is to cover this projected operating deficit with a transfer in from the General Fund and Safety and Security budget to allow them to break even for the year.

There is no fund balance in the Parking Fund at this moment. Unlike the health fee, which rises automatically with the Consumer Price Index, the parking fee does not. This results in continued reductions to security services for parking and virtually no dollars available for parking lot maintenance.

Current Status:

No change from Adopted Budget.

CAMPUS CENTER USE FEES

Fund 28

Revenues are generated by collecting a mandatory fee for use of the campus centers at each institution. The proceeds are isolated by campus and are restricted for the following purposes in order of priority: 1) retirement of Certificates of Participation financing the campus center expansion projects, 2) repair and replacement of existing student campus center facilities, and 3) personnel support of campus center operations.

A major restructuring of the Foothill Campus Center Use Fee at Foothill College was approved by the Board of Trustees at the June 21, 2004, meeting. This restructuring of the fee was necessary due to 1) demolition of the old campus center and construction of a new building, requiring old debt to be paid off and new debt to be issued, and 2) restructuring the services and fee level that off-campus students paid. As a consequence of these actions, the Campus Center Use Fee at Foothill College was suspended until summer quarter 2006. In the meantime, the June 30, 2004 fund balance was used to pay the necessary expenses during the interim period.

Another major restructuring in Fund 28 is the De Anza Campus Center Use Fee at De Anza College, which was approved by the Board of Trustees at the June 6, 2005, meeting. The purpose for the increase was to finance a new debt of \$5 million for fifteen years for the renovation portion of the existing campus center building.

At the June 5, 2006 board meeting, the Board of Trustees approved to modify the De Anza Campus Center Use Fee for campus-based students for the next five years as follows:

2006/07	\$ 15.00
2007/08	15.50
2008/09	16.00
2009/10	16.00
2010/11	16.00 (will be reduced to \$15 if possible)

In November 2006, the district issued a Certificate of Participation for \$11.33 million, which paid for a portion of the new Foothill Campus Center building and a portion for the renovation of the De Anza Campus Center building. The new debt service will be repaid from the already approved increases in campus center student fees.

Current Status:

In the second quarter, as a result of an increase in the on-campus student enrollment, we are projecting an increase of \$72,000 in student use fees revenue and a corresponding increase in expenses. We are projecting to end the fiscal year with a net change in fund balance of \$102,368 and a projected carryover fund balance of \$736,906.

ENTERPRISE FUND FOOTHILL and DE ANZA CAMPUS CENTERS FLINT CENTER

The Enterprise Fund is accounted for in a manner whereby the total costs of providing goods and services are financed or recovered primarily through user charges. Enterprise operations comprise the Foothill and De Anza College Campus Centers and Flint Center for the Performing Arts. The campus centers include the two bookstores and De Anza Dining Services. Financial activity in the Enterprise Fund is measured by gross margins and net profit rather than by the governmental budget to actual measurement.

Current Status:

Foothill Enterprise Fund

Bookstore

The continual shifting of major selling days this year will make sales comparisons difficult all year. Two additional selling days from the fall quarter opening ended up in September this year. This contributed \$69,400 more in textbooks sales for the month of September and resulted in higher textbooks sales of \$72,000 for the first quarter. This helps to explain the \$51,400 drop in textbook sales for the second quarter.

There is a cooperative effort with the district and the college whereby Purchasing will buy their Apple products through the bookstore and, in exchange, the bookstore will share the commissions it is paid from Apple for these purchases. This has helped the bookstore to increase its computer sales by over 140% for the year, which accounts for over 86% of the increase in total sales.

Because most of the increase in sales came from higher computer sales, the effect of these sales on gross profit was negligible. Sales of Apple products are made basically at cost, as the bookstore is paid a commission from Apple. The jump in computer sales pushed the cost of goods sold percentage over 2.5% higher for the year.

The year-to-date loss dropped from \$133,600 last year to \$94,800 this December. This occurred, however, mainly because of a change in how the entries for the COP that was issued for the bookstore's fixtures are being recorded this year versus last year. Restating last year's amount to account for this change drops the \$133,600 loss to a \$93,000 loss.

Projected net income for the year has been slightly lowered from \$21,300 to \$14,300 due mainly to anticipated drops in shipping income and interest earnings.

De Anza Enterprise Fund

Bookstore

Sales are up 3.3% for the year, with 66% of this increase coming from computer sales. This increase is the result of a cooperative effort with the district and the college to direct all Apple Computer purchases through the bookstore.

Textbook sales are relatively flat, having increased only .6% over last year. The textbook rental program started for fall quarter undoubtedly affected these sales. Textbook rentals have generated \$15,500 in fees so far this year, the equivalent of approximately \$46,400 in new textbook sales. This first year of the program is projected to lose approximately \$3,500.

Last year's net profit of \$10,000 through December has turned into a net loss of \$122,000 this year. At this point most of this can be attributed to a loss of \$28,500 from the textbook rental program and a jump of \$84,200 in personnel costs, \$66,600 of which came from an increase in student wages.

Projected sales for the year have been increased 4.4% on the strength of higher used textbook and computer sales. Despite these higher sales, net income is expected to drop slightly from the \$134,300 that was originally budgeted to \$121,700. This projected drop is being caused by higher-than-anticipated expenses in some areas and the small loss from the textbook rental program.

Dining Services

Dining Services is continuing its impressive growth over last year. The 331% first quarter increase over last year, when the cafeteria did not open until the start of fall quarter, has been followed by a 30% increase for the second quarter. Sales are up 66% over last year and are 83% higher than two years ago, the last full year of operation.

Management has done an incredible job of controlling their personnel costs, which are up this year mainly due to operations not being opened until the start of fall quarter last year. Total year-to-date payroll expenses, up \$22,500 at the end of the first quarter, only increased another \$3,700 by the end of the second quarter despite a significant jump in sales.

Net income of \$24,200 for the first six months this year is quite a turnaround from the \$117,100 loss last December. Projected sales for the year have been increased 10.7% over the original 08/09

budget. Net income is expected to increase from the \$23,000 that was originally budgeted to \$69,900.

Combined Bookstore & Dining Operations

The combined operations of the De Anza Enterprise Fund have a net loss of \$97,800 through December compared to a net loss of \$107,100 last year:

- Bookstore Net loss of \$122,000
- Dining Services Net profit of \$24,200

Revised projections for the year ending June 30, 2009 anticipate a net profit for the year of \$192,500:

- Bookstore Net profit of \$122,600
- Dining Services Net profit of \$69,900

Flint Center Fund

Due to cancellations of several events and poor ticket sales in the second quarter, we are anticipating that revenues for 08/09 will be slightly less than what was originally budgeted and, although we are currently showing a deficit of \$66,309, this is entirely predictable and normal for the second quarter. We expect a more profitable third and fourth quarter and anticipate a modest profit at year-end.

CHILD DEVELOPMENT FUND

Fund 26

The Child Development Fund supports the costs associated with the district's Child Development Center located at De Anza College. The De Anza College campus completed construction of a new Child Development facility that has been utilized since August 2002. The renovations of two wings of the existing facility were completed in July 2003. The De Anza Child Development Center provides services to students from both Foothill College and De Anza College. Providing childcare to children between the ages of one and six years old, the center is also utilized as a facility for Early Childhood Education students to observe and train. In 1999/00, De Anza opened an infant-toddler center to support Foothill-De Anza students, including Cal Works students, and for use by the community.

Current Status:

We are projecting an increase to our state revenues and related expenses in the Child Development Fund of \$143,397. The increase in state funding comes from two sources of revenue:

- We anticipate earning our full CDC state contract that helps subsidize the cost of childcare for low-income families
- The state has paid us more Tax Bailout funds than was originally budgeted

Although the state budget passed with no reductions to childcare funding for 08/09, there have been discussions of mid-year cuts to community college funding, including the categorical programs. If no cuts are made at the state level for Child Development funding, we anticipate that our Child Development Fund will break even during the 08/09 fiscal year and will maintain their carryover balance of \$468,656 to be utilized in future years.

STUDENT FINANCIAL AID

Funds 33, 34, 37, 38 & 39

These funds are used for federal, state, and local financial aid programs. The federal programs are the Pell Grants, Supplemental Educational Opportunity Grants (SEOG), Perkins Loan Program and Americorps Community Service Initiative Grants. The state programs are EOPS grants and Cal Grants. Local programs include a variety of scholarships. The Perkins and SEOG programs both require a match.

Current Status:

We are projecting no significant changes from the previous quarter.

INTERNAL SERVICE FUND

The purpose of such a fund is to separately account for services provided on a district-wide basis. Costs associated with providing health benefits, workers' compensation, extended sick leave, and post-retirement benefits are to be accounted for in one fund, and an appropriate service rate is charged to each of the other funds.

In the past, this fund was used almost exclusively as an accounting convenience to charge benefits in one fund and then distribute them to all other funds. Any positive or negative ending balances were closed to the General Fund (Fund 14) at year-end.

We have included an exhibit on the next page that summarizes Internal Service Fund balances. Since there are sufficient balances in this fund it is recommended that, since our 08/09 budget is forecast to have a structural deficit of \$6.5 million (\$1.5 million due to a projected increased cost of health benefits in the General Fund account), we transfer approximately \$1.5 million of these funds to offset the increases in health benefits plan costs in fiscal year 08/09. We have budgeted this transfer out to the General Fund as one of the one-time solutions to close the 2008/09 deficit.

In the first quarter, as budgeted, we transferred \$829,400 to the Internal Service Fund from the General Fund in anticipation of making a full contribution to the unfunded post-employment medical liability. We will bring an agenda item to the Board of Trustees later in the year authorizing the district to make this contribution.

An analysis of actual expenses for the first six months of 08/09 indicates that there may be a savings of about \$1 million in 08/09. This savings is due in part to the actual experience, especially among the retiree group, but is also due to the higher number of vacancies being held open during 08/09 in preparation for the budget reductions imminent in 09/10 and beyond. These expenses will continue to be monitored closely as they can change quickly as a result of only a few cases of illness or injury amongst the active and retired employees. We have included this estimated savings of \$1 million in our projections.

This would leave an estimated unrestricted \$7 million in this fund, which could be used to offset medical benefits increases for active and retired employees in 09/10. To the extent all of these funds are not needed in 09/10, some could be used to help offset an 09/10 operating deficit in the General Fund on a one-time basis; some could also be rolled over to 2010/11 or be used for unfunded retiree medical liability.

It should also be noted that this strategy of offsetting medical benefits increases with one-time savings is not without risks. The advantage is that we could offset medical benefit increases in the short term, and this would clearly help both active and retired employees. However, this has the effect of artificially propping up the medical benefits budget with one-time money and when that money runs out, there would need to be significant changes to the operating budget and/or the level of benefits to accommodate the reality of the one-time funds being exhausted.

CAPITAL PROJECTS FUND Fund 76

Each account in this fund represents a specific capital project of sufficient importance to warrant separate accounting from the General Purpose Fund. All project budgets, budget transfers, and actual project expenditures are reviewed by the Audit and Finance subcommittee of the Board and then are approved by the Board of Trustees and, if appropriate, state agencies.

Budgets are reported on a project basis, whereas actual revenues and expenditures are accounted for on both a project and fiscal year basis. Funding may come from either outside sources such as state sources, General Obligation Bonds, borrowings or donations, or from transferring resources from internal funds that will receive the benefit from the assets being created. Plant Services assumes fiscal responsibility for most of these financial accounts and reconciles these accounts with the project cost accounting system. The district currently has a number of major capital outlay projects and scheduled maintenance projects either under construction or in various queues.

Current Status:

Measure E Projects:

There were no revisions for the second quarter.

At Foothill, final Division of State Architects (DSA) close out documentation remains in progress on the Campus Center and the Lower Campus Complex. Minor improvements continue on small projects that were previously on hold due to budget constraints. These projects are monitored on a weekly basis to ensure that high priority projects are completed first. Current construction estimates for the Language Arts Division Office and Radio Station reveals that both projects are over budget. Further design efforts have been put on hold due to the decision of the college to reprogram the use of building 6200. The Language Arts division office will be constructed in building 6400 under the Measure C bond program and the Radio Station has been asked to undertake fundraising activities to close the budget shortfall.

At De Anza, substantial completion was achieved on the Visual and Performing Arts Center (VPAC) with closeout activities and building occupancy continuing through the second half of the fiscal year. Final design approval was achieved from the Division of State Architects (DSA) for the

renovation of the E1 Auto Technology building. Future construction activities for this project will occur under the Measure C bond program. Design efforts are underway on Master Landscaping Phase II, Campus Site Lighting Phase II, ADA Asphalt Walkway Improvements, and the Advanced Technology Center (ATC) Central Plant Noise Attenuation projects.

Measure C Projects:

Revisions for the second quarter include a reduction in expenses from \$96 million at Adopted Budget to \$35 million. The figures used in the adopted budget may have been unrealistic because of multiple uncertainties associated with the startup of the program and the settlement of the lawsuit. The new figures are based on additional planning and detailed project schedules.

The second quarter of fiscal year 08/09 at Foothill saw completion of upgrades on Phase 2 of the Mainline Irrigation maintenance project. Planning has begun on the Central Campus Site Improvements project and on several other site-related projects. Construction efforts continue as scheduled on the Forum (building 5000). Design efforts remain underway on the Physical Sciences and Engineering Center, Parking Lot 4, as well as the adjacent Soccer, Softball and Baseball Complex. Design development efforts are underway on renovations of the Administration Building (1900) and General Classrooms (Physical Sciences, Mathematics and Engineering building 5500 and Language Arts building 6400). Planning and design efforts are also underway on high priority maintenance projects, most notably swimming pool repairs, gymnasium floor refinishing, and corrections to the mechanical systems at the Krause Center for Innovation.

The second half of the fiscal year will see completion of design phases and progress on construction documents on many projects. Design of the District Office/Data Center renovation will also begin.

De Anza saw, and will continue to see, the progression of design phases related to the new Mediated Learning Center. Design remains underway on the Baldwin Winery and East Cottage "Historic Renovation," the Seminar Building, and Multicultural Center renovation projects. Design continues on the first phase of the S2-S6 Phase 2 Utility Master Plan maintenance project.

Both campuses continue to acquire furniture and instructional equipment as well as technologyrelated equipment. Educational Technology Services (ETS) successfully completed the installation of the hardware and baseline Banner applications. Implementation of the Banner Finance module is on schedule to go live July 1, 2009. The purchase of wireless equipment to expand the wireless network to the classrooms on the De Anza campus took place during the second quarter. The acquisition of Network Hardware to meet critical high bandwidth requirements for the Advanced Technology Center (ATC) also occurred, along with the installation of Access Points in the Visual and Performing Arts Center (VPAC). ETS entered into an agreement for consulting services with the Burton Group to finalize the design and development of the Network and Security specifications to replace over 200 network devices.

State Capital Outlay Funding:

In late December 2008, California community colleges were notified by the State Chancellor's Office that reimbursement for some previously authorized capital outlay projects were now frozen until further notice due to the state's dire fiscal outlook.

For Foothill De Anza, this translates into a potential loss of interest earnings of approximately \$40,000 because of delays in claim reimbursement payments of approximately \$3.2 million for expenses already incurred but not yet claimed before the freeze was imposed.

In addition, a decision was made to fund the remainder of these previously authorized state projects. These projects, urgent in nature, are related to outfitting recently completed Measure E construction projects, which are already in progress and have to be currently funded from other funding sources, diverting much-needed resources from other projects. We estimate that if the state does not reimburse the district for these expenditures, we would have to redirect approximately \$900,000 from other projects.

DEBT SERVICE FUND

Fund 77

This fund is for the repayment of current principal and interest due on the district's general long-term debt and lease arrangements (Certificates of Participation). Resources are generally transferred into this fund from the fund or account that initiated the original debt or lease. This fund also accounts for the legally required reserves mandated by the various debt or lease issuances.

The district has issued three major debt instruments in recent years to finance large capital purchases such as the De Anza College parking garage, student center expansions at both colleges, technology infrastructure, and HVAC and deferred maintenance. \$6.9 million of certificates of participation matured on December 1, 1998. The remaining debt instruments are as follows:

- October 1997: The district defeased \$7.36 million of Certificates of Participation and issued \$12.52 million with effective interest rates of 3.8% to 5%. Payments of principal and interest are made June 1 and December 1 of each year. The estimated annual payment is \$1,514,535.
- May 1998: To finance the Energy Management and Retrofit Project, the district entered into a lease agreement with Municipal Leasing Associates. The amount of the lease is \$3,385,000 over fifteen years. The lease will be repaid from guaranteed savings realized in the use of energy efficient systems.
- May 2000: The district issued \$99.9 million of the General Obligation Bond, Series A, with effective interest rates of 4.25% to 6.26%. Payments of principal and interest are made August 1 and February 1 of each year.
- October 2002: The district refinanced a portion (\$67,475,000) of the General Obligation Bond, Series A (original value \$99,995,036) with effective interest rates of 4.61%. Payments of principal and interest are made February 1 and August 1 of each year.
- **June 2003:** The district refinanced the '93 COP of \$21.06 million. The refinanced amount of \$18.2 million constitutes the remainder of the original \$21.06 million with effective interest rates of

- 4.531%. Payments of principal and interest are made on September 1 and March 1 of each year. The estimated annual payment is \$1,348.892.
- October 2003: The district issued \$90.1 million of the General Obligation Bond, Series B, with effective interest rates of 2% to 5.79%. Payments of principal and interest are made August 1 and February 1 of each year.
- April 2005: The district entered into a capital lease agreement with CitiMortgage, Inc. to finance the purchase and installation of Photovoltaic Solar Collecting Systems at Foothill College and De Anza College. The amount of the lease is \$3,188,626 with repayment term of over fifteen years. Savings from the utility charges will be used to service the debt payment each year.
- **June 2005:** The district entered into a capital lease agreement with CitiMortgage, Inc. to finance the purchase of Furniture and Fixtures and the MBS POS System for De Anza College Enterprise operation. The amount of the lease is \$539,050 with a repayment term of over ten years.
- **September 2005:** The district has been given an insured bond rating of "AA" by Standards & Poor's Rating Services and a rating of "Aa1" by Moody's Investors Services.
- October 2005: The district issued \$57.9 million of the General Obligation Bond, Series C, with effective interest rates of 4.81% to 5.03%. Payments of principal and interest are made August 1 and February 1 of each year.
- October 2005: The district refinanced a portion (\$22,165,000) of the General Obligation Bond, Series B (original value \$90,100,063) with effective interest rates of 3.00% to 5.250%. Payments of principal and interest are made August 1 and February 1 of each year.
- November 2006: The district financed a Certificate of Participation for \$11.33 million, with effective interest rates of 3.5% to 5%. Payments of principal and interest are made on September 1 and March 1 of each year. The estimated annual payment is \$1,020,254. The financed amount of the COP will be used for the renovation portion of the Foothill and De Anza Campus Center buildings and the Foothill Bookstore Equipment, Furniture and Fixtures.

- April 2007: The district issued \$149,995,250 million of the Election of 2006 General Obligation Bond, Series A, with effective interest rates of 4% to 5%. Payments of principal and interest are made August 1 and February 1 of each year.
- May 2007: The district issued \$99,996,686 million of the Election of 2006 General Obligation Bond, Series B, with effective interest rates of 4% to 5%. Payments of principal and interest are made August 1 and February 1 of each year.

c. Provide an explanation on how the district intends to fund the salary and benefit increases, and also identify the revenue source/object code.

VI. Did the district have significant events for the quarter (include incurrence of long-term debt, settlement of audit findings or legal suits, significant differences in budgeted revenues or expenditures, borrowing of funds (TRANs), issuance of COPs, etc.)?

9

If yes, list events and their financial ramifications. (Enter explanation below, include additional pages if needed.)

VII. Does the district have significant fiscal problems that must be addressed?

This year? Next year?

If yes, what are the problems and what actions will be taken? (Enter explanation below, include additional pages if needed.)

RESOLUTION

Whereas, Title V, Section 58199, requires that the total amount budgeted as the proposed expenditure of the district for each major classification of district expenditures listed in the district budget forms shall be the maximum amount which may be expended for that classification of expenditures for the school year, and

Whereas, the district has reserves in excess of the amount required by Board policy, and

Whereas, the Board of Trustees by resolution may provide for budget revisions,

Be it therefore resolved, that the budget revisions be approved as follows:

BUDGET REVISIONS

The major elements of our budget revisions are listed below. The descriptions contain amounts for each type of budget revision; the tables represent the <u>net</u> revisions to each classification of expenditure.

Fund 14 - General Fund

The <u>major</u> revisions to the General Fund include an increase to revenue and corresponding expenses for campus-generated revenue (\$6,133); a transfer out to the Foundation for staff development leave replacement costs (\$46,343); and a reduction in mandatory transfer out to the Special Education Fund (\$52,179).

Sources Account Series		Use Account Series
0xxx - Revenue	\$ 6,133	4000 - Materials and Supplies \$ 5,475
1000 - Certificated Salaries	3,000	5000 - Operating Expenses 49,718
2000 - Classified Salaries	42,284	7000 - Transfers/Other Outgo 646
3000 - Employee Benefits	4,422	
Totals	\$ 55,839	\$ 55,839

Fund 15 - Self-Sustaining Fund

The <u>major</u> revisions to the Self-Sustaining Fund include a reduction in revenue (\$1,073,500) and corresponding expenses (\$840,800) for the Etudes program, resulting in a net decrease to fund balance of \$225,801.

Passed and adopted by the Governmeeting held on March 2, 2009.	ning Board of the l	Foothill-De Anza Community Colleg	ge District at a
		Martha J. Kanter Secretary to the Board	

RESOLUTION

Whereas, Title V, Section 58199, requires that the total amount budgeted as the proposed expenditure of the district for each major classification of district expenditures listed in the district budget forms shall be the maximum amount which may be expended for that classification of expenditures for the school year, and

Whereas, the Board of Trustees, by resolution, approved by a majority of the members, may provide for the transfer between expenditure classifications,

Be it therefore resolved, that transfers between expenditure classifications be approved as follows:

BUDGET TRANSFERS

2nd Qtr Rpt_Measure E_Summary_as of 12-31-08_A&F_3-2-09 (version 1).xls

Capital Projects Update - Measure C Whole Program

m Reporting Period:

Inception to 12/31/2008

Reflecting Year-End Accruals and Projected Earnings

Funding Sources (Budget):

Bond Sale:	\$490,800,000	94.92 %
Interest Earned:	\$12,273,913	2.37 %
Unallocated Interest Earned:	\$3,330,662	0.64 %
Total Bond:	\$506,404,575	97.94 %
State:	\$0	0.00 %
Scheduled Maintenance:	\$1,963,439	0.38 %
Projected Earnings:	\$8,705,040	1.68 %
Total Bond + Other Funding:	\$517,073,054	100.00 %

Note

Overhead includes those items currently charged to the pass-through accounts (#501 and #510), as well as overhead charged to the individual projects.

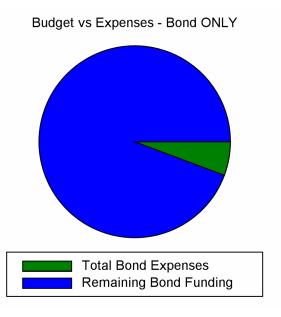

Projected Earnings Notes:

This financial report includes projected bond interest earnings. These are the assumptions used in determining projected earnings:

- The actual results will probably differ due to the timing of expenditures and changes in interest rates.
- Interest from cash is calculated using the past 3 year investment yield average from the Santa Clara County Commingled Fund. These estimates are more susceptible to change by spending patterns, changes on interest rates and other factors.
- Earnings from securities are calculated using the original spending plan that was designed for the GO bond issuance.
- Series A: Securities will be fully liquidated by end of FY09/10
- Series B: Remaining balance of securities at the end of FY09/10 will be \$23,147,000. The last invested security is scheduled to mature March 2012.

Cost Status:

Note:

Interest earned from 10/1/08 to 12/31/08 is not reflected on this report as it is pending board action for distributribution to the projects.

Projected Earnings Notes:

This financial report includes projected bond interest earnings. These are the assumptions used in determining projected earnings:

- The actual results will probably differ due to the timing of expenditures and changes in interest rates.
- Interest from cash is calculated using the past 3 year investment yield average from the Santa Clara County Comingled Fund. These estimates are more susceptible to change by spending patterns, changes on interest rates and other factors.
- Earnings from securities are calculated using the original spending plan that was designed for the GO bond issuance.
- Series A: Securities will be fully liquidated by end of FY09/10.
- Series B: Remaining balance of securities at the end of FY09/10 will be \$23,147,000. The last invested security is scheduled to mature March 2012.
