

Intercultural/International Studies gets dean

Lille Larson
Reporter
Effective July 1, Lydia Ledesma-De John will take the position of full-time dean of Intercultural/International Studies division at De Anza. Ledesma-De John will replace Hunter, the acting dean, and will return to full-time teaching.
Ledesma-De John comes to De Anza after one year at Cerritos College in Irvine where she is now the assistant dean of Extended Day/Weekend Col-

Prior to employment at Cerritos College, Ledesma-De John was director of special projects, Office of Relations with Schools and Colleges, at the University of California, Irvine.
As dean of Intercultural/International Studies, Ledesma-De John's duties will include 50 percent of her time teaching in her credentialed discipline.
She will also be responsible for evaluating full and part-time faculty and staff in her department, and will form and organize a committee to prepare job

descriptions, screen, review, and interview applicants, and recommend all full-time instructors for this division.
Ledesma-De John's choice to come to De Anza was partly due to "the excellent reputation of both De Anza college and the District," says Ledesma-De

John. Ledesma-De John was also impressed with the Intercultural/International Studies department at De Anza. "I've always had a passion or interest in the area of Intercultural/International studies, De Anza is one of the colleges that offers a lot in this area."

Ledesma-De John's educational background consists of an Ed.D. from Pepperdine University, a M.A. from California State University, Fullerton and San Diego, a B.A. from California State University, Fullerton, and an A.A. from Saddleback Community College.

Have fun, no credit

Christine De Graw
Reporter
The schedule for De Anza's summer courses being offered for the summer quarter are now available. The summer quarter classes, which are a part of the regular Community Education Program, have been offered for approximately 15 years. The goal of the program is to offer educational community interest classes on a short term basis with a no credit, non-credit program.
The fees, which range from the Moon Landing class to the 400 trek to Nepal, are used to support the program.
The short courses serve approximately 2,000 people each quarter, and that number rises by about 400 during the summer because a College For Kids program is offered.
The classes provide non-aca-

demical courses in areas such as piano, art, and self defense for children. "Fun things they don't take at school," said Nancy Gfroerer, Staff Assistant, Short Courses.
The idea of being able to take something fun also applies to others as well, said Gfroerer. "It's the kind of thing that if a student is kind of sick of just taking G.E.D. they might want to look to us for fun...they can take a course in something they've always wanted to do," she said.

The classes start and stop at different times during the quarter, making it easy to fit into a schedule. Registration can be done any time before the class actually starts by phone, walk-in, or by mail.

For more information, call Nancy Gfroerer at 996-4966.

Predicting who transfers

By Christine De Graw
Staff Reporter

BW Associates, hired by the National Effective Transfer Consortium (NETC) identified a new definition of the transfer rate, predicting transfers, and an examination of critical factors that affect transfers as possible methods to increase the number of transfers to four year colleges from community colleges at their March 6 meeting.

The NETC, which is made up of 28 community colleges across the United States, including De Anza, was formed in 1987 to improve their transfer education. BW Associates, who were hired to collect data on transfer practices, surveyed over 30,000 students and is visiting all of the NETC campuses.

The first of the strategies, which were outlined in a memo by BW Associates, is to change the definition of the transfer rate to give a more accurate picture of how effective the programs are.

The method used now divides the number of transfers by the total college enrollment, which counts enrolled students in the denominator whether they are able to transfer or not, producing an artificially low rate.

The new method would be based on counting the number of transfers among those who actually leave the college. The number of transfers are divided by the number of students who leave in a given quarter or semester.

Another of the strategies suggested is being able to predict transfers. Students are placed in four categories:

Type I - is expected to transfer and does.

Type II - is expected to transfer but does not.

Type III - is not expected to transfer but does.

Type IV - is not expected to transfer and does not.

If the colleges were able to identify which category each student would fall into, the schools would be able to more effectively aim their transfer assistance.

The last strategy they would like to implement is the examination of critical factors that affect transfers. They have developed a diagnostic method to identify organizational elements that promote or undermine the use of effective transfer practices.

The NETC hopes to begin use of new transfer methods in the fall of 1989.

New De Anza club formed

Students survive shooting

By Brian Welgel
Editorial Editor

The De Anza Survival Games Association (DASGA) has recently formed as a club on campus to promote the sport of "paintball."

BY DAVE ONETO/LA VOZ

A splattered Joe Ciciliot, president of the De Anza Survival Games Association, vows to draw first blood—or, in this case, first paint.

Paintball, a survivalist game in which players split into teams and attempt to capture the opponents flag, is played using guns firing paint capsules that break on impact, instead of real bullets, thereby reducing the chances for injury.

The club was started by Joe Ciciliot, Rico Immondi, and James Linehan to promote interest and emphasize safety in the sport.

According to President Joe Ciciliot, the club will have both indoor and outdoor games and scrimmages and will emphasize safety and techniques involved in the game.

"It's actually a very safe sport for people who use the proper safety equipment," says Immondi, the club's former president.

DASGA has already obtained a 55 acre field that can be used for practice anytime the club wishes, according to Immondi.

"We're going to be having once a week practice for our indoor and outdoor teams," said Immondi, enthusiastically adding that the indoor teams will most likely practice at TAPS Indoor Paint Ball Games in Santa Clara.

The club will also occasionally play on a course run by Adventure Games Unlimited, off Highway 9 in the Santa Cruz mountains.

According to Ciciliot, the club will be raising funds to buy equipment and doing volunteer work in the local community.

"We're going to be doing a lot of volunteer work at the veteran's hospital," says Ciciliot. "We're not a bunch of military guys or some guys that didn't live it out in Vietnam."

The club's new vice-president is John Murphy; the treasurer, James Linehan.

Finals schedule

The following is the schedule for Spring Quarter finals, June 19 - 23.

DAY CLASSES (Including daytime classes at Sunnyvale Center)

Classes meeting on Thursday, plus any other combination of days

7:30 a.m.	7:30-9:30 a.m., Thursday, June 22
9:30 a.m.	7:30-9:30 a.m., Friday, June 23
9:30 a.m.	9:45-11:45 a.m., Tuesday, June 20
10:30 a.m.	9:45-11:45 a.m., Wednesday, June 21
11:30 a.m.	12 noon-2:00 p.m., Thursday, June 22
12:30 p.m.	12 noon-2:00 p.m., Friday, June 23
1:30 p.m.	2:15-4:15 p.m., Tuesday, June 20
2:30 p.m.	2:15-4:15 p.m., Wednesday, June 21
3:30 p.m.	2:15-4:15 p.m., Wednesday, June 21

Classes which do NOT meet on Thursday (e.g., Monday Wednesday and Friday):

7:30 a.m.	7:30-9:30 a.m., Tuesday, June 20
8:30 a.m.	7:30-9:30 a.m., Wednesday, June 21
9:30 a.m.	9:45-11:45 a.m., Tuesday, June 20
10:30 a.m.	9:45-11:45 a.m., Friday, June 23
11:30 a.m.	12 noon-2:00 p.m., Tuesday, June 20
12:30 p.m.	12 noon-2:00 p.m., Wednesday, June 21
1:30 p.m.	2:15-4:15 p.m., Thursday, June 22
2:30 p.m.	2:15-4:15 p.m., Friday, June 23
3:30 p.m.	2:15-4:15 p.m., Friday, June 23

EVENING CLASSES

Regular Class Meeting (Day and Time)	Exam Date	Exam
Mon./Wed., Twilight	Wed., June 21	3:45-5:45 p.m.
Mon./Wed., Early	Wed., June 21	6-8 p.m.
Mon./Wed., Late	Wed., June 21	8:15-10:15 p.m.
Tues./Thur., Twilight	Tues., June 20	3:45-5:45 p.m.
Tues./Thur., Early	Thur., June 22	6-8 p.m.
Tues./Thur., Late	Thur., June 22	8:15-10:15 p.m.
Mon., only	Mon., June 20	6-8 p.m.
Tues., only	Tue., June 19	6-8 p.m.
Wed., only	Wed., June 21	6-8 p.m.
Thur., only	Thur., June 22	6-8 p.m.
Fri., only	Fri., June 23	6-8 p.m.

Time Designations:
Twilight-class starting time earlier than 5:15 p.m.
Early-class starting time between 5:30 and 7 p.m.
Late-class starting time 7:15 p.m. and later

Note: Where a class has both a lecture and a lab, the exam schedule is geared to the lecture

Health Services offers \$ savings

By Christine De Graw
Staff Reporter

What can a student find at De Anza College that is convenient, inexpensive, and has many options? Birth control.

Since 1971, De Anza's Health Office has been providing family planning services to those attending the college. "It seems to me it's a necessity for a college age population," said Ruth Foy, Coordinator of Health Services.
The office holds clinics twice a

month during the regular school year, during which gynecological exams are given by Dr. Kathryn Lannin, GYN. Once the exam is finished, the patient and doctor work together to decide on the best method of birth control for the individual.

The clinic and all of the various methods of protection, such as diaphragms, condoms, spermicides, and pills, are offered at a substantially lower price than can be found outside the campus. For

example, the examination given at the clinic, which averages at least \$81 at a general practitioner's office, is \$25 through the Health Office and birth control pills are \$1 a month, compared to \$15-\$18 at a pharmacy.

The next clinic will be held in October. In the meantime, the Health Office suggests that students use condoms that are available at the office, located in the Administration Building. For more information, call (408) 996-4732.
