Subject: Why Students Enrolled in EWRT 1A + LART 250, Spring 2024 Survey Results

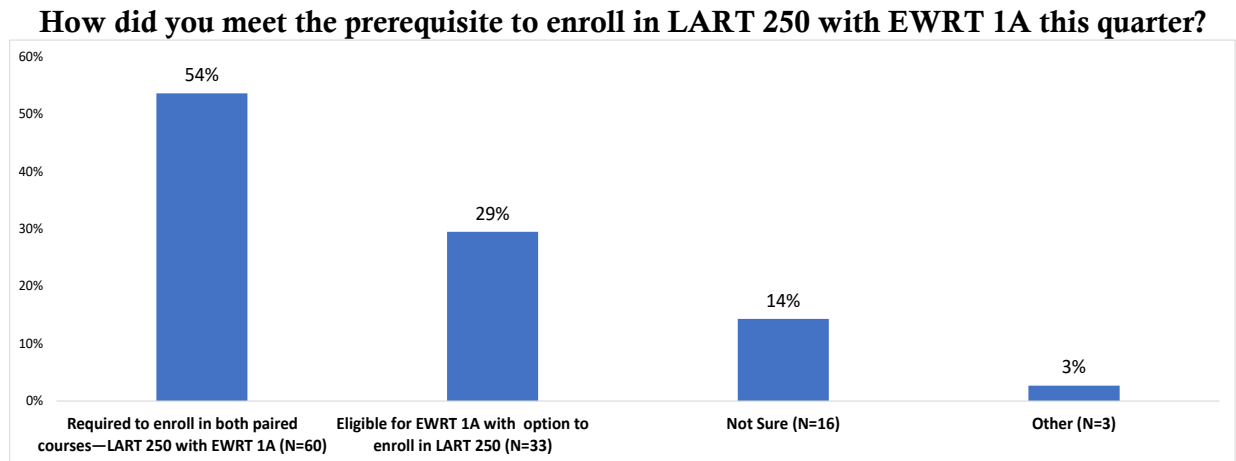

Overview:

A few members of the English department wanted to ensure students were appropriately enrolled in EWRT 1A + LART 250, based on their placement results. The Office of Institutional Research, Planning and Accreditation created an online survey that was administered in spring 2024 quarter to students enrolled in LART 250. A total of 112 responses were collected between April 7-30, 2024.

Results:

- 54% of respondents indicated they were required to enroll in EWRT 1A + LART 250 based on their English placement result (HC=60).
- 29% of respondents indicated they were eligible for EWRT 1A standalone (HC=33).

Figure 1:

- Among the 33 respondents who self-reported they were eligible for EWRT 1A, it appears most of them knowingly enrolled in the bundled course (HC=25).
 - Half of these respondents indicated they wanted to enroll in EWRT 1A standalone but those sections were full (HC=12).
 - Other reasons the 25 respondents cited were the bundled section fit their schedule (N=16), desire to take EWRT 1A with the instructor (N=8), desire for extra support (N=8) and recommendation from a counselor, friend or teacher (N=7).

Table 1A:

Why are you taking LART 250 with EWRT 1A? Check all that apply.

Note: Respondents were given 11 response options and could select more than one answer. This table provides the answer combinations and the associated count(s) of the 33 respondents who indicated they were eligible for EWRT 1A standalone.
